## Put This Stove in Your Kitchen

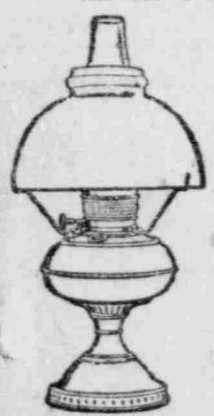

It is wonderfully convenient to do kitchen work on a stove that's ready at the instant wanted, and out of the way the moment you're done. Such a stove is the New Perfection Wick Blue Flame Oil Cook-Stove. By using it you avoid the continuous overpowering heat of a coal fire and cook with comfort, even in dog-days. The

is so constructed that it cannot add perceptibly to the heat of a room; the flame being directed up a retaining chimney to the stove top where it is needed for cooking. You can see that a stove sending out heat in but one direction would be preferable on a hot day to a stove radiating heat in all directions. The "New Perfection" keeps a kitchen uniformly comfortable. Three sizes, fully warranted. If not with your dealer, write our nearest agency.

## CITY FINANCIERS RETRENCH A BIT

### Council Committee Abandons Plan for Sweeping Increase in Water Rates.

The efforts of Thomas Hobday, the new superintendent of waterworks, to enthrone the council waterworks committee over his proposed new schedule of rates, seem to have been of no avail.

Mr. Hobday proposed that the meter rate be increased from a minimum of 25 cents per 1,000 gallons and a minimum of 10 cents to a flat rate of 10 cents to all consumers and that the present flat rates for those who do not use meters be slightly increased. The increases proposed would net the department \$40,000, enough to take care of the water bond interest each year and provide for a sinking fund to ultimately redeem the bonds.

While the committee has acknowledged the justice of the Hobday schedule, nevertheless it has been deemed best by the "American" members to do nothing until next year.

The reason for the desire to postpone consideration is threefold. In the first place, the city is about to ask the people to vote \$500,000 bonds, and if an increase in water rates is made at this time, it might defeat the change of enough votes to defeat the bond issue. Besides this, the "American" administration is going to raise the tax rate from 12 to 14 2-3 mills if the bond issue carries or not, and it figures that the increase of water rates would not look well at this time.

If there is any increase it will be in the meter rates, and this has been acknowledged by President Davis of the council. This increase will, however, be slight, and may only result in raising the minimum rate from 25 cents to 30 cents, or perhaps making a flat rate of 8 cents. The idea of making a flat 10-cent meter rate has been abandoned.

Superintendent Hobday will send out his twelve water rate assessors today, and they will canvass the city. It is his intention to make a new assessment all around, based on the water rates of course, but it is thought that a considerable increase in the revenue can be obtained by more equitably distributing the burden.

## PRINTERS ESCAPE PENALTY

### Skelton Company Won't Suffer for Failure to Deliver New Code on Time.

The state board of examiners has decided not to enforce the penalty clause in the contract with the Skelton Publishing company for printing the new code authorized by the last legislature.

The contract entered into with the company by the state provides a penalty of \$5 a day for delay in completing the work after the expiration of the time within which the work was to be completed. Jan. 1, for the first fifteen days thereafter. Since Jan. 15 the penalty is \$9 a day.

The code commission itself delayed the work perhaps fifteen days, and at the most not more than a month.

The state board of examiners, however, has determined not to enforce this penalty as it would eat up practically the entire amount which Skelton is to receive for printing the book.

In the meantime the code commission is fretting because the index is not turned out more rapidly, and the attorneys are becoming impatient that the new book be put in their hands.

Many complaints have been received by the commission, but as has already been stated, that body is blameless according to the general understanding, and the delay has been caused by the printers alone.

## AMUSEMENTS.

The musical festival which has been constantly kept in the mind of Salt Lake during the past six months, and which is Salt Lake's second annual festival, will commence at 3:45 o'clock this afternoon at the tabernacle and continue throughout tomorrow, four performances in all. The Chicago Symphony orchestra arrived this morning from Provo accompanied by Messrs. Stephens, McClellan and Shepherd. All of these local musicians have had rehearsals with the orchestra in their respective places.

The orchestra gave two most excellent concerts in Ogden Monday and it is stated that the organization is much superior to that of last year, excellent as that was. Conductor Rosenbecker is a most amiable and dignified conductor, without the peculiar mannerisms of some of the conductors of our day. He has his men under perfect control, they playing like one instrument. At the concert this afternoon, besides the orchestra, there will be heard the following soloists: Rose Luttiger Gannon, contralto; Franz Wagner, cellist; and Arthur Middleton, bass. The following programs will be rendered at the performances this afternoon and tonight:
